# 1. Overview

This course focuses on the tools and capabilities used to find, organize, and work with products in Brand PXC. Learners will explore different ways to search for products, refine search results using filters, save commonly used searches, and personalize their workspace for greater efficiency.

## 2. Objectives

By the end of this course, you will be able to:

- Search for products using keywords, filters, and AI-powered search.
- Use attribute filters and operators to refine search results.
- Create and use saved filters for common search scenarios.
- Personalize search result views to support daily workflows.
- Locate and manage products more efficiently within the catalog.
- Edit multiple products using bulk edit capabilities.
- Apply catalog navigation techniques to improve productivity and efficiency.

## 3. Duration

The duration of the course is **20 minutes**.
