Re: Item Data Synchronization

## **Announcement: New Item Setup and Item Maintenance Process Change**

Denver Wholesale Foods is excited to announce we have partnered with 1WorldSync to implement and leverage the Global Data Synchronization Network (GDSN) for the exchange of product information.

If you receive this communication, then we have identified you as a valued information partner. Starting today, DWF is requesting all our valued suppliers and partners to participate in the GDSN. By leveraging the GDSN platform we are enabling the exchange of standardized, reliable and brand-owner certified content. This will allow us to move forward with our goal of improving food safety and quality control, as these are key components of our culture and are critical to DWF's continued success.

Please take the following required steps:

1. Complete the GDSN supplier registration form at: <https://1worldsync.com/trading-partners/denver-wholesale-foods/>
2. If your company has implemented GDSN, review the [Implementation Guide](#) on how to synchronize your item data with Denver Wholesale Foods.
3. If your company has not implemented GDSN, select a certified GDSN Data Pool or Solution Provider. DWF is using 1WorldSync as our Data Pool and Solution Provider.
4. As an opportunity buyer business model we're requesting your entire catalog is published to **GLN 1200180590141**.

The success of this initiative is critical to us and our customers. We look forward to partnering with your organization to reach our objective and meet the September 15th deadline.

For additional resources and to begin your registration with 1WorldSync, please visit:

<https://1worldsync.com/trading-partners/denver-wholesale-foods/> or contact 1WorldSync directly at [businessdevelopment@1worldsync.com](mailto:businessdevelopment@1worldsync.com).

We greatly appreciate your partnership and cooperation in making this transition smooth and effective, ultimately benefiting both our organizations and our valued customers.

Warm regards,
